SECTION 1: Identification

Product identifier
   Product name: Liquid Plastic Resin
   Product code: EPR369002

Recommended use of the product and restriction on use
   Relevant identified uses: Not determined or not applicable.
   Uses advised against: Not determined or not applicable.
   Reasons why uses advised against: Not determined or not applicable.

Manufacturer or supplier details
   Manufacturer:
      Canada
      Ecopoxy
      Box 220
      Morris
      Manitoba, R0G1K0, Canada
      855-326-7699
      info@ecopoxy.com
      http://www.ecopoxy.com

   Emergency telephone number:
      Canada
      ChemTel Inc
      +1 813 248 0585

SECTION 2: Hazard identification

GHS classification:
   Skin sensitization, category 1
   Skin irritation, category 2
   Eye irritation, category 2A

Label elements
   Hazard pictograms:
      !

   Signal word: Warning

Hazard statements:
   H317 May cause an allergic skin reaction.
   H315 Causes skin irritation.
   H319 Causes serious eye irritation.

Precautionary statements:
   P261 Avoid breathing dust/fume/gas/mist/vapors/spray.
   P264 Wash skin and eyes thoroughly after handling.
   P272 Contaminated work clothing should not be allowed out of the workplace.
Liquid Plastic Resin

P280 Wear protective gloves/protective clothing/eye protection/face protection.
P321 Specific treatment (see supplemental first aid instructions on this label).
P302+P352 IF ON SKIN: Wash with plenty of water/soap.
P333+P313 If skin irritation or a rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before reuse.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313 If eye irritation persists get medical advice/attention
P501 Dispose of contents and container as instructed in Section 13.

Hazards not otherwise classified: None

SECTION 3: Composition/information on ingredients

<table>

Additional Information: None

SECTION 4: First-aid measures

Description of first-aid measures

General notes:
Not determined or not available.

After inhalation:
Loosen clothing as necessary and position individual in a comfortable position
Maintain an unobstructed airway
Get medical advice/attention if you feel unwell

After skin contact:
Wash affected area with soap and water
Seek medical attention if symptoms develop or persist

After eye contact:
Rinse/flush exposed eye(s) gently using water for 15-20 minutes
If symptoms develop or persist, seek medical attention
Remove contact lens(es) if able to do so during rinsing
Seek medical attention if irritation persists or if concerned

After ingestion:
Rinse mouth thoroughly
Seek medical attention if irritation, discomfort, or vomiting persists

Most important symptoms and effects, both acute and delayed

Acute symptoms and effects:
Not determined or not available.

Delayed symptoms and effects:
Not determined or not available.
Immediate medical attention and special treatment

**Specific treatment:**
- Not determined or not available.

**Notes for the doctor:**
- Not determined or not available.

### SECTION 5: Fire-fighting measures

**Extinguishing media**

**Suitable extinguishing media:**
- Use Water (fog only), dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam

**Unsuitable extinguishing media:**
- Do not use a water stream as an extinguisher

**Specific hazards during fire-fighting:**
- Thermal decomposition can lead to release of irritating gases and vapors
- Vapors can flow to distant ignition sources and flashback
- Liquid is volatile and may generate an explosive atmosphere

**Special protective equipment for firefighters:**
- Use typical firefighting equipment, self-contained breathing apparatus, special tightly sealed suit

**Special precautions:**
- Shut off sources of ignition
- Carbon monoxide and carbon dioxide may form upon combustion
- Heating causes a rise in pressure, risk of bursting and combustion

### SECTION 6: Accidental release measures

**Personal precautions, protective equipment and emergency procedures:**
- Ensure adequate ventilation
- Ensure air handling systems are operational
- Wear protective eye wear, gloves and clothing
- Beware of vapors accumulating to form explosive concentrations
- Vapors can accumulate in low areas

**Environmental precautions:**
- Should not be released into the environment
- Prevent from reaching drains, sewer or waterway

**Methods and material for containment and cleaning up:**
- Wear protective eye wear, gloves and clothing
- Use spark-proof tools and explosion-proof equipment
- Absorb with non-combustible liquid-binding material (sand, diatomaceous earth (clay), acid binders, universal binders)
- Dispose of contents / container in accordance with local regulations

**Reference to other sections:**
- Not determined or not applicable.

### SECTION 7: Handling and storage

**Precautions for safe handling:**
### Liquid Plastic Resin

Use only with adequate ventilation.
Avoid breathing mist or vapor.
Do not eat, drink, smoke or use personal products when handling chemical substances.
Take precautionary measures against electrostatic discharges.
Use only non-sparking tools.

#### Conditions for safe storage, including any incompatibilities:
- Keep container tightly sealed.
- Protect from freezing and physical damage.
- Store in a cool, well-ventilated area.
- Store away from all ignition sources (open flames, hot surfaces, direct sunlight, spark sources).

### SECTION 8: Exposure controls/personal protection

Only those substances with limit values have been included below.

#### Occupational Exposure limit values:
No occupational exposure limits noted for the ingredient(s).

#### Biological limit values:
No biological exposure limits noted for the ingredient(s).

#### Information on monitoring procedures:
Monitoring of the concentration of substances in the breathing zone of workers or in the general workplace may be required to confirm compliance with an OEL and adequacy of exposure controls.
Biological monitoring may also be appropriate for some substances.

#### Appropriate engineering controls:
- Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling.
- Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.
- Use explosion-proof ventilation equipment.

#### Personal protection equipment

**Eye and face protection:**
Safety goggles or glasses, or appropriate eye protection.

**Skin and body protection:**
Select glove material impermeable and resistant to the substance.
Wear appropriate clothing to prevent any possibility of skin contact.

**Respiratory protection:**
If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

**General hygienic measures:**
Avoid contact with skin, eyes and clothing.
Wash hands before breaks and at the end of work.
Wash contaminated clothing before reuse.

### SECTION 9: Physical and chemical properties

#### Information on basic physical and chemical properties

Other information

SECTION 10: Stability and reactivity

Reactivity:
- Does not react under normal conditions of use and storage.

Chemical stability:
- Stable under normal conditions of use and storage.

Possibility of hazardous reactions:
- None under normal conditions of use and storage.

Conditions to avoid:
- None known.

Incompatible materials:
- None known.

Hazardous decomposition products:
- None known.

SECTION 11: Toxicological information

Acute toxicity
- Assessment: Based on available data, the classification criteria are not met.
Liquid Plastic Resin

Product data: No data available.

Substance data: No data available.

Skin corrosion/irritation
Assessment: Causes skin irritation

Product data: No data available.

Substance data:

<table>
<thead>
<tr>
<th>Name</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>2,2''-[(1-Methylethylidene)bis(4,1-phenyleneoxymethylene)]bisoxirane homopolymer</td>
<td>Causes skin irritation</td>
</tr>
</tbody>
</table>

Serious eye damage/irritation
Assessment: Causes serious eye irritation

Product data: No data available.

Substance data:

<table>
<thead>
<tr>
<th>Name</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>2,2''-[(1-Methylethylidene)bis(4,1-phenyleneoxymethylene)]bisoxirane homopolymer</td>

</tbody>
</table>

Carcinogenicity
Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.

International Agency for Research on Cancer (IARC): None of the ingredients are listed.
National Toxicology Program (NTP): None of the ingredients are listed.

Germ cell mutagenicity
Assessment: Based on available data, the classification criteria are not met.

Product data: No data available.

Substance data: No data available.
Reproductive toxicity

Assessment: Based on available data, the classification criteria are not met.
Product data: No data available.
Substance data: No data available.

Specific target organ toxicity (single exposure)

Assessment: Based on available data, the classification criteria are not met.
Product data: No data available.
Substance data: No data available.

Specific target organ toxicity (repeated exposure)

Assessment: Based on available data, the classification criteria are not met.
Product data: No data available.
Substance data: No data available.

Aspiration toxicity

Assessment: Based on available data, the classification criteria are not met.
Product data: No data available.
Substance data: No data available.

Information on likely routes of exposure:
No data available.

Symptoms related to the physical, chemical and toxicological characteristics:
No data available.

Other information:
No data available.

SECTION 12: Ecological information

Acute (short-term) toxicity

Assessment: Based on available data, the classification criteria are not met.
Product data: No data available.
Substance data: No data available.

Chronic (long-term) toxicity

Assessment: Based on available data, the classification criteria are not met.
Product data: No data available.
Substance data: No data available.

Persistence and degradability

Product data: No data available.
Substance data: No data available.

Bioaccumulative potential

Product data: No data available.
Substance data: No data available.

Mobility in soil

Product data: No data available.
Substance data: No data available.

Other adverse effects: No data available.

SECTION 13: Disposal considerations

Disposal methods:

It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities.

SECTION 14: Transport information

</table>

Non-domestic substances list (NDSL): Not determined.

SECTION 16: Other information

Abbreviations and Acronyms: None

Disclaimer:
This product has been classified in accordance with the Canadian Hazardous Products Regulations and WHMIS 2015. The information provided in this SDS is correct, to the best of our knowledge, based on information available. The information given is designed only as a guidance for safe handling, use, storage, transportation and disposal and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials, unless specified in the text. The responsibility to provide a safe workplace remains with the user.

Initial preparation date: 04.03.2017
